STRATA CONTROL OFFICER - C5

Applications are invited from suitably qualified and experienced persons for the position of Strata Control Officer at Modikwa Platinum Mine, situated in the Eastern Bushveld near Burgersfort. The incumbent will report to the Senior Rock Engineer.

REQUIREMENTS

- Grade 12
- Minimum of 1-year experience Strata Control Officer / Observer
- COM Strata Control Certificate (Metalliferous)
- Computer literate in Microsoft Office. Understanding of modeling software is an add advantage
- Sound knowledge of the mining environment, with respect to stoping and development
- Knowledge and understanding of geological structures for application in Strata Control observations
- Knowledge and understanding of support systems and standards
- Medically Fit (Red Ticket) for underground work
- Must be self-motivated, diligent and proactive with regard to safety
- Able to work individually and as a team

DUTIES AND RESPONSIBILITIES

- Be able to perform strata control examinations, audits, scrutinize mine layouts and write reports
- Participate in short term mine planning activities in conjunction with production sections
- Oversee Strata Control Observers (coaching – on the job training)
- Assist Resource Leader Rock Engineering in specific functions
- Be able to assume technical responsibilities as laid out in the Modikwa role profile for Strata Control Officer
- Be able to perform panel and tunnel risk ratings
- Do short term projects and write technical reports
- Support mine safety programmes

WORK DESCRIPTION

The Strata Control Officer is responsible for assisting the Senior Rock Engineer with strata control issues in his area of responsibility. The role is responsible for conducting underground investigations on request, observe strata conditions and ensure rock engineering standards are complied with, as well as pro-actively identifying high risk areas. The incumbent also bears the responsibility of conducting panel and tunnel risk ratings on mine plans. In addition to this the incumbent is required to participate in short term (monthly), pre-planning meetings in conjunction with production and other technical services departments. The incumbent is also responsible to ensure timeous and accurate reporting of potential hazardous conditions underground to the Senior Rock Engineer.

PACKAGE

The package will be in accordance with the Modikwa package schedules.
