

CAREER OPPORTUNITY

African Rainbow Minerals (ARM) is a leading South African diversified mining and minerals company with operations in South Africa and Malaysia. ARM mines and beneficiates iron ore, manganese ore, chrome ore, platinum group metals (PGMs), nickel and coal and has a strategic investment in gold through Harmony Gold Mining Company (Harmony).

MANAGER: ELECTRICAL ENGINEERING (E-LOWER PATTERSON GRADING)

Purpose of the Job:

ARM is committed to achieving zero carbon emissions by 2050. To support this goal and ensure energy security at our operations, ARM needs to undertake various renewable energy projects. These initiatives require specialized electrical engineering expertise, oversight, and management. Additionally, there is a need to promote and coordinate best practices in electrical engineering across the group.

Location:

- Sandton, Johannesburg

Job Requirements:

- B.Sc. Engineering or Higher National Diploma in Electrical Engineering;
- Government Certificate of Competency;
- Registered Pr Eng/Pr Tech Eng.
- 10 to 15 years of proven heavy electrical experience: 10 years in the heavy engineering field; of which 5 years is solid project management related experience.
- Specialist knowledge of Electrical Engineering and Project Management.

Job Responsibilities:

- Ensure the implementation of best practices in Electrical Engineering across all ARM operations.
- Manage or facilitate medium to large scale renewable and sustainable energy projects from feasibility studies to project execution.
- Foster cross-functional collaboration with other disciplines and Senior Management.

- Lead ARM's "Climate Change Initiatives" by optimizing electrical supply usage efficiently and coordinating with Eskom within the ARM Group.
- Ensuring compliance with the Mine Health and Safety Act, along with related legislation and statutory requirements, during the design and implementation of equipment and systems.
- Collaborate closely with contractors, subcontractors, operations, and senior management to assist and advise the electrical project team in achieving key milestone deliverables.
- Provide strategic, expert guidance on designing and implementing electrical systems for renewable energy projects.
- Ensure application of company electrical standards.

Personal Attributes:

- Professionalism.
- High level negotiation skills.
- Assertiveness.
- Demonstrates accuracy and thoroughness.
- Uses time efficiently.
- Ability to maintain pleasant working relationships.
- Must have strong interpersonal & communication skills.
- Must be analytical and problem-solving thinker.
- Must be conscientious.
- Must be detail-oriented.

Equity Statement:

Preference will be given to suitably qualified applicants from designated groups in line with the employment equity plan and targets of the organisation.
