

Career Opportunity Internal & External Advert

Bokoni Platinum Mines is a mining operation situated in the Eastern Limb of the Bushveld Complex.

Applications are invited from suitably qualified and experienced candidates for the position of **Section Engineer**. The position will be based at Bokoni Platinum Mines at Atok (Fetakgomo Tubatse Local Municipality, Sekhukhune District Municipality in Limpopo).

Section Engineer DU

Purpose of the Job:

The successful candidate will provide engineering management and technical expertise within the designated area of responsibility by ensuring legal compliance, engineering governance, asset reliability, and maintenance excellence in accordance with the Mine Health and Safety Act, company standards, and operational requirements. The incumbent will be appointed in terms of **Section 2.13.1 of the Mine Health and Safety Act (Act 29 of 1996)** and will be accountable for engineering safety, performance, and statutory compliance within the area of responsibility.

Job Requirements:	- Degree or National Diploma in Mechanical Engineering; or Electrical Engineering (Compulsory). - Government Certificate of Competency (GCC) – Mines and Works (Compulsory). - Postgraduate qualification, such as a Management Development Leadership Programme (Highly Recommended). - At least 8 years of operational engineering experience (trackless and conventional underground), including 3+ years in management. - Experience in PGM mining, conventional stoping, TMM systems, project management, digital maintenance, and reliability engineering. - Demonstrated track record of holding a 2.13.1 legal appointment.
Job Responsibilities (will include the following but not limited to):	- Provide legal, technical and safety leadership as the appointed 2.13.1 Engineer, ensuring full compliance with MHSA requirements, company standards and engineering governance. - Manage the reliability, maintenance and availability of underground mining equipment and infrastructure to support safe and efficient production. - Deliver engineering support to underground operations through effective maintenance planning, contractor management and continuous improvement initiatives. - Lead, develop and manage engineering teams by promoting a high-performance culture, employee development and succession planning. - Manage engineering budgets, control costs, optimise resource utilisation and contribute to the achievement of operational and business objectives. - Ensure sound engineering governance, risk management, statutory compliance and adherence to all legal, regulatory and corporate requirements.
Personal Attributes:	- Safety leadership - Strategic thinking and decision-making - Stakeholder engagement - Team development and coaching - Problem-solving and innovation - Effective communication and influencing skills

Application for the above vacancy may be submitted via email to recruitment@bokoniplatinum.co.za no later than 17 July 2026. Please attach:

- Comprehensive updated CV
- Certified ID copies
- Certified copies of all qualifications

Equity Statement:

Preference will be given to suitably qualified applicants from designated groups in line with the Employment Equity Plan or Compliance Targets of the Organisation.
