

CAREER OPPORTUNITY

NKOMATI
NICKEL MINE

Nkomati Nickel Mine is primarily a nickel and chrome operation located in the Mpumalanga Province between Badplaas (eManzana) and Machadodorp (eNtokozweni), within the broader Waterval Boven (Emgwenya) region. Nkomati is owned by African Rainbow Minerals (ARM), a leading South African diversified mining and minerals company. ARM mines and beneficiates iron ore, manganese ore, chrome ore, platinum group metals (PGMs), nickel and coal and has a strategic investment in gold through Harmony Gold Mining Company (Harmony).

SURVEYOR (C5 PATTERSON GRADING)

REFERENCE NUMBER: NK-HFS-EL-05/06/2026

Purpose of the Job:

The Surveyor will provide specialist surveying services to support safe, efficient, and legally compliant open-pit mining operations. The successful candidate will be responsible for production surveying, mine design set-outs, volumetric calculations, survey control, data management, and reporting to support operational and strategic mine planning objectives.

Location:

- Slaaihoek Farm, Waterval Boven, Mpumalanga

Job Requirements:

- Grade 12.
- National Diploma or Degree in Mine Surveying, Geomatics, Mineral Resource Management, or equivalent.
- Minimum 3–5 years' experience in an open-pit mining environment.
- Experience with survey software such as Surpac, MinePlan, Vulcan, Datamine, or AutoCAD.
- Proficiency in GPS, Total Stations, UAVs, and related survey technologies.
- Valid Code B Driver's Licence.
- Mine Survey Certificate of Competency will be advantageous.
- IMSSA membership will be advantageous.

Job Responsibilities:

- Conduct production, topographical, and engineering surveys.
- Perform pit design, drill pattern, blast block, and infrastructure set-outs.
- Conduct stockpile, waste dump, and ore volume calculations.
- Maintain survey control networks and survey databases.
- Produce accurate plans, reports, and survey records.
- Support geology, mine planning, production, and environmental teams.
- Ensure compliance with MHSA requirements and mine standards.
- Utilize modern survey technologies including GPS, Total Stations, UAVs, and survey software.
- Participate in safety initiatives and risk management activities.

Technical and Behavioural Competencies

The successful candidate should demonstrate:

- Strong analytical, planning and organisational skills with a high attention to detail.
- Ability to interpret technical information, analyse maintenance trends and optimise work processes.
- Effective communication, stakeholder engagement and coordination skills across multidisciplinary teams..

Equity Statement:

Preference will be given to suitably qualified applicants in line with the employment equity plan and targets of the organisation.
