### COORDINATOR CONTROL ROOM (C2 PATTERSON GRADING)

REFERENCE NUMBER: NK-CCR-C2-05/10/2026

#### Purpose of the Job:

The successful candidate will be responsible for cost monitoring, budgeting, forecasting, financial analysis and reporting activities that support effective financial control and business performance. The role provides financial insights and cost management support to operational departments and contributes to sound financial governance across the business.

#### Location:

- Slaaihoek Farm, Waterval Boven, Mpumalanga

#### Job Requirements:

- Grade 12 (NQF Level 4).
- Relevant technical qualification in Mineral Processing, Process Operations or related field will be advantageous.
- Minimum 2-3 years' experience in crushing plant operations, control room operations or process control within a mining or processing environment.
- Experience with SCADA, PLC or plant control systems will be advantageous.
- Experience in crushing, screening and materials handling operations.

#### Job Responsibilities:

- Monitor and control crusher operations through approved plant control systems.
- Coordinate communication between field operators, supervisors and maintenance teams.
- Monitor plant performance, alarms and process deviations.
- Record production information, downtime events and operational data.
- Coordinate responses to operational interruptions and equipment failures.
- Support achievement of crushing throughput and availability targets.
- Ensure compliance with safety procedures and operating standards.
- Prepare shift reports and operational handover information.
- Participate in operational improvement and optimisation initiatives.

#### Technical and Behavioural Competencies

The successful candidate should demonstrate:

- Understanding of crushing plant and production processes.
- Knowledge of operational monitoring and process-control principles.
- Ability to coordinate operational activities and problem-solving responses.
- Strong communication and organisational skills.
- Computer literacy and report-writing capability.
- Attention to detail and strong situational awareness.
- Ability to work in a high-pressure production environment.
- Commitment to safety and teamwork.

#### Equity Statement:

Preference will be given to suitably qualified applicants in line with the employment equity plan and targets of the organisation.
